

Key dates - Sustainable Food Cities' Award application

The Sustainable Food Cities Award is designed to recognise and celebrate the success of those places taking a joined up, holistic approach to food and that are achieving significant positive change on a range of key food health and sustainability issues.

There are currently two tiers to the award – bronze and silver - each requiring an increasing level of achievement in terms of action and outcomes. Whether you are applying for bronze or silver the application process is the same and is heavily facilitated to avoid a waste of time for all parties involved.

Below are the key dates to keep in mind if you are considering applying for the Award.

This document complements the Sustainable Food Cities Award's application form and briefing document which can be found on the [website](#).

Examples of successful applications can be found here:
